Description:

Ok the agenda or the purpose of what we are going to be doing is similar to any radio station, magazine, or newspaper. **RESEARCH!** We are going to hunt down anything interesting, crazy, awesome, or whatever. So intend on a lot of laughs and crazy times. Sometimes we will have on location assignments whether it be reporting or picture taking, the cool thing is sometimes those happen to be at concerts and what not!!! We want people to know about what is going on out their in our community. We are the local radio station and we need to get connected and stay connected. Also within the scope of your ability we will work you into doing on air shifts with myself, Jeremy, and possibly by yourself on the weekends. You will learn about how radio broadcasts work and what we do to make things happen.

Here's the catch.
